Discussion:

Please write a small paragraph discussing teamwork (who did what, how much, was the work allocation fair, did each member respect commitments and deadlines...).

We all did the respective parts shown in the table above. Providence did the instructor dashboard and the instructor class page. Adam did the student dashboard and the student class page. Athavan made the management account pages for students and instructors. Louis created the login page and class-creation pages for instructors and the view page for students. For the most part, we each did our parts separately, then later adjusted the format and designs to match each other. We each respected the allocated deadline. Roles were well defined.
